### General Characteristics

The Citation Mustang was Cessna's answer to the new very light jet (VLJ) class. Powered by two Pratt & Whitney PW615F turbofan engines and hosting the Garmin G1000 avionics system, Cessna achieved FAA Type Certification September 8, 2006. FAA Type Certification for the Mustang includes single-pilot operation, day/night operations, visual and instrument flight rules (VFR/IFR), and operations in reduced vertical separation minimum (RVSM) airspace.
